

Site Waste Management Plan Course

Who should attend?

This course is applicable to Project Managers and Principal Contractors who are involved with construction / demolition projects with a value of over £300,000 on a single site.

Course Aims and Objectives:

To allow applicable staff to fulfill their legal and company duties with regards to the Site Waste Management Plan Regulations (SWMP) 2008 whether acting as a Client or Principal Contractor. The course will cover the drivers for improving waste management, the existing duty of care requirements and new requirements. In particular delegates will have a thorough understanding how to complete or review an example Site Waste Management Plan pro-forma.
